The Qudorat Program is an official registration initiative by the Abu Dhabi Public Health Centre, introducing a new competency-based regulatory framework to formalize the registration of occupational safety and health (OSH) practitioners and service providers in the Emirate of Abu Dhabi.

The objective of the new competency-based regulatory framework under Qudorat is to ensure that OSH professionals operating in Abu Dhabi meet recognized professional requirements, supporting improved workplace safety and regulatory compliance across various sectors. Registration of practitioners and service providers under the Qudorat Program establishes a comprehensive mechanism for assessing, qualifying, and formally registering professionals operating in the field.

- | Raise OSH professional standards across Abu Dhabi
- | Introduce competency examinations
- | Strengthen regulatory compliance
- | Establish a verified professional registry
- | Align with international best practices

The new requirements of the program reflects Abu Dhabi's ongoing efforts to strengthen workplace safety and ensure that regulatory systems evolve in line with emerging sector needs.

The initiative aligns with the Abu Dhabi Occupational Safety and Health System Framework (OSH) and supports the emirate's efforts to strengthen governance and oversight across the occupational safety and health sector.

WHO IS REQUIRED TO REGISTER?

All individuals or professional entities who wish to engage in occupational safety and health activities whether by practicing or providing OSH services within the Emirate of Abu Dhabi are required to register.

Mandatory Registration For:

- | OSH Practitioner (General)
- | OSH Practitioner (Senior)
- | OSH Auditor

PROGRAM REGISTRATION & REQUIREMENTS

Register through TAMM App and become an accredited professional. Build your career pathway and unlock new job opportunities.

To register in the Qudorat Program, applicants must undergo a formal and impartial process to assess their qualifications, which includes a review of education, practical experience, level of resources, training, or a combination of these elements. This process aims to ensure that those registered to provide occupational safety and health services have met a benchmarked level of competency.

Applicants are required to be highly qualified and competent to ensure the delivery of high-quality and reliable occupational safety and health services, and to comply with the requirements of the Abu Dhabi Occupational Safety and Health System Framework (ADOSH-SF).

OSH General Practitioner

- Occupational safety and health qualification certificate equivalent to Emirates qualification framework Level 4 or membership to a professional accreditation body at a specified level.

OSH Senior Practitioner

- Occupational safety and health qualification certificate equivalent to Emirates qualification framework Level 7 or membership to a professional accreditation body at a specified level.
- Minimum 3 years experience delivering Occupational Safety and Health within an entity.

OSH Auditor

- Current registration at the grade of lead auditor with an international professional accreditation body e.g. IRCA.

REGISTRATION PROCESS

1 Initial Registration through Online Portal

- Platform linked to TAMM App to reduce the need for individual uploads
- Applicant will create a profile through the Qudorat platform
- Each user will have a personal dashboard from which they can access all services

2 Category Registration and Registration Fee Payment

- From the dashboard, users can apply for individual categories they wish to register for
- Complete the registration fee payment (The approved registration fee is AED 540.)

3 Upload the Required Documents Related to Registration

- Documents will be limited to specific education certification
- Documents will undergo internal review prior to the next stage

4 2-Stage Internal Review (Approve – Reject)

- Following completion, the applicant will receive a digital registration card

5 Annual Renewal

- Requirements for renewal to be defined
- Options include ongoing CPD for specific roles or renewal examination at a defined timescale
